What That Protects

A moved deadline is extra time to bid — or a trap for anyone working to the old date. The Fishtrap Lake Intake Structure and Dam Rehabilitation solicitation (W91237-26-R-A020) moved from November 6 to November 20, 2026: fourteen more days that a bidder tracking the original posting would never have seen. The live Renewal ROI Report builds this page from your own organization's record: pipeline value tracked, reports filed, workflow approvals, and every amendment caught on your pursuits.
